

Exhibit at “12th Automotive World” in Tokyo The premiere of “Candera Link”

Candera will exhibit at “Automotive World” on January 15 to 17, 2020 at Tokyo Big Sight in Japan and give the first public performance of “Candera Link” – it is one of the in-house developed products of Candera.

The 12th Automotive World

<https://www.automotiveworld.jp/ja-jp.html>

“Candera Link” is a remote rendering service that allows platform independent data and service to be shared by multiple clients (IVI, Cluster, AR HuD, smartphones, etc.). It simplifies the overall HMI with a domain computing architecture and is a 1SoC in a server called a hub, and it can be connected clients’ devices to clouds and remoted service (smart assistant, IoT device etc.) and can be moved to. Since it is not necessary to place a High-Specification SoC on each client, it enables to reduce costs and resources.

Candera is going to exhibit at “Candera Link” and any other in-house developed products. Also, we will give some novelties—original pen, aroma candle or LED penlight (size: 15mm × 60mm) for you on a first-come-first-served basis at our booth.

Candera original novelties
