

Candera presenting CGI Studio 3.10 at “3rd China Automotive Intelligent Cockpit Summit 2021” in Shanghai

September 15, 2021 - Linz/Austria and Shanghai/China – On September 27th and 28th, the 3rd China Automotive Intelligent Cockpit Summit will feature speakers and makers presenting their latest in intelligent cockpit design. During these 2 days Candera will present its latest award-winning HMI solutions and give an interesting insight into the Next Generation of HMI Development.

This year’s China Automotive Intelligent Summit 2021 in Shanghai will gather about 120 experts and executives from the automotive industry to focus on network technologies, software developments, hardware innovations, business models and user insights about intelligent cockpits – as well as to provide an in-depth comprehensive analysis of the opportunities and challenges of intelligent cockpit development.

The Candera team is glad to be back in person in Asia and will proudly present Candera’s latest CGI Studio version 3.10:

The Candera Smart Importer recently won the first prize at Germany's CarHMI Award 2021 in the category 'Most Innovative Application of Machine Learning & AI in Automotive HMI + UX'. Runner up was Mercedes-Benz with their "MBUX Zero Layer".

The Car HMI Europe Award exclusively honours exceptional projects in the automotive industry. It celebrates outstanding solutions, innovations and unique development processes in automotive user experience, UIs and HMIs.

More highlights of CGI Studio 3.10 include the new Japanese user interface in addition to English, enhanced samples and tutorials for easy onboarding, and improved "Candera LINK" remote rendering.

All of which will help designers to save precious time and costs.

The Candera team is looking forward to welcoming you at the **China Automotive Intelligent Summit 2021 in Shanghai** (at the Radisson Collection Hotel, Xing Guo Shanghai - 78 Xing Guo Road, Changning District, Shanghai 200052, P.R. China) on September 27th and 28th, 2021.

Based on over 20 years of experience in the embedded software development together with our broad customer base we have created a mature feature-rich and customizable product. In fact, CGI Studio today covers all aspects of automotive GUI development and beyond. Furthermore, we're closely working together with our customers and industry partners to provide solutions for present and future HMI needs.
